MEMORANDUM FOR: Chief, Engineering Staff, OC

SUBJECT : Request for Engineering Personnel

25X1A

1. Project [] has an urgent requirement for a young, single engineer for an assignment to Detachment "H". For processing purposes we recommend that the subject be assigned to slot number 512.

2. From personal knowledge and a review of the files we find that [] would be an excellent candidate and that he has been recommended for an overseas tour of duty. We believe a tour with this project would be both broadening and beneficial to [] career and would aid us in filling a technical assignment that is limited to single men only.
